

## Working Scientifically Investigation Timetable

### Year 1

Class	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
KS1	<p><b>Topic:</b> Everyday Materials (year 1)</p> <p><b>Scientist:</b> William Cullen (invented the fridge)</p> <p><b>Investigation:</b> What makes an ice cube melt faster?</p>	<p><b>Topic:</b> Animals Including Humans (Year 2)</p> <p><b>Scientist:</b> Marie Maynard Daly (Heart scientist)</p> <p><b>Investigation:</b> How does exercise change my heart beat? (Differentiate for year 1 and 2 as repeated each year)</p>	<p><b>Topic:</b> Uses of Everyday Materials (year 2)</p> <p><b>Scientist:</b> Leo Hendrick Baekland (Plastic)</p> <p><b>Investigation:</b> To investigate the properties of different materials.</p>	<p><b>Topic:</b> Plants (year 1)</p> <p><b>Scientist:</b> Agnes Arber (Botanist)</p> <p><b>Investigation:</b> OBSERVATIONAL AND RESEARCH HEAVY Tree and plant hunt in school grounds.</p>	<p><b>Topic:</b> Seasonal Changes (Year 1)</p> <p><b>Scientist:</b> John Dalton (Studied the weather 1700's)</p> <p><b>Investigation:</b> Using thermometers in different areas to measure temperature differences.</p>	<p><b>Topic:</b> Animals Including Humans (Year 1)</p> <p><b>Scientist:</b> Roger Arliner Young</p> <p><b>Investigation:</b> Reaction Rate investigation – how quickly can you catch the ruler? Are your reaction times quicker before or after lunch?</p>
Bramley	<p><b>Topic:</b> Electricity (Year 4)</p> <p><b>Scientist:</b> Thomas Edison (Light bulb)</p> <p><b>Investigation:</b> What are the best materials to make a pressure switch? (Conductors and Insulators)</p>	<p><b>Topic:</b> States of Matter (Year 4)</p> <p><b>Scientist:</b> Santorio Santorio (Thermometer)</p> <p><b>Investigation:</b> Curious chocolate – Melting Times Investigation.</p>	<p><b>Topic:</b> Sound (year4)</p> <p><b>Scientist:</b> Alexander Graham Bell (telephone)</p> <p><b>Investigation:</b> What would be the best materials for ear defenders?</p>	<p><b>Topic:</b> Living Things and their habitats (year 4)</p> <p><b>Scientist:</b> Eddy Carmack (Climate researcher)</p> <p><b>Investigation:</b> How does surface area impact the rate of melting ice? – The link being global warming and the melting ice caps impact on polar bears hunting grounds.</p>	<p><b>Topic:</b> Animals Including Humans (Year 4)</p> <p><b>Scientist:</b> William Beaumont (digestion expert)</p> <p><b>Investigation:</b> OBSERVATION HEAVY Modelling the digestive system: <a href="https://www.stem.org.uk/resources/elibrary/resource/35396/digestive-system-experiment">https://www.stem.org.uk/resources/elibrary/resource/35396/digestive-system-experiment</a></p>	<p><b>Topic:</b> Animals Including Humans (Year 4)</p> <p><b>Scientist:</b> Aristotle (Classification)</p> <p><b>Investigation:</b> Investigating impact of different liquids on teeth using egg shell to model this.</p>
Discovery	<p><b>Topic:</b> Properties and Changes of Materials (Year5)</p> <p><b>Scientist:</b> Roy J. Plunkett (Teflon)</p> <p><b>Investigation:</b> Is sugar more soluble in warm or cold water?</p>	<p><b>Topic:</b> Light (year 6)</p> <p><b>Scientist:</b> Michael Faraday</p> <p><b>Investigation:</b> Investigating the relationship between the line of incidence and the line of reflection.</p>	<p><b>Topic:</b> Earth and Space (year 5)</p> <p><b>Scientist:</b> Edwin Hubble</p> <p><b>Investigation:</b> What impacts the size of Moon Craters?</p>	<p><b>Topic:</b> Earth and Space (year 5)</p> <p><b>Scientist:</b> Stephen Hawking</p> <p><b>Investigation:</b> How and why does my shadow change over the day?</p>	<p><b>Topic:</b> Animals Including Humans (Year 5)</p> <p><b>Scientist:</b> Rosalind Franklin (Discovered structure of DNA)</p> <p><b>Investigation:</b> Hypothetical analysis of data showing growth of babies.</p>	<p><b>Topic:</b> Animals Including Humans (Year 6)</p> <p><b>Scientist:</b> William Harvey</p> <p><b>Investigation:</b> The effect of exercise on pulse rate. (Will have been covered in Pippins so really needs to show that progression.</p>

## Year 2

Class	Term 1	Term 2	Term 3	Term 4	Term 5	Term 6
KS1	<p><b>Topic:</b> Animals Including Humans (year 2)</p> <p><b>Scientist:</b> Robert Marsham (Studied the impact of seasons on plants and animals)</p> <p><b>Investigation:</b> How does exercise change my heartbeat? (Differentiate for year 1 and 2 as repeated each year)</p>	<p><b>Topic:</b> Seasonal Changes (year 1)</p> <p><b>Scientist:</b> James Marshall Shepherd (weather and climate expert)</p> <p><b>Investigation:</b> Measuring rainfall using rain gauges.</p>	<p><b>Topic:</b> Uses of Everyday Materials (year 2)</p> <p><b>Scientist:</b> George De Mestrel (Velcro)</p> <p><b>Investigation:</b> Investigate how the ratio of sand to water compares to make the best sandcastle.</p>	<p><b>Topic:</b> Plants (year 2)</p> <p><b>Scientist:</b> Beatrix Potter</p> <p><b>Investigation:</b> Investigate growing different plants looking at different conditions and comparing.</p>	<p><b>Topic:</b> Living Things and their Habitats (year 2)</p> <p><b>Scientist:</b> Al-Jahiz (He first introduced the idea of food chains)</p> <p><b>Investigation:</b> Compare 3 different habitats in school grounds. Predict what you may find living there. What questions you have and what questions this answered.</p>	<p><b>Topic:</b> Animals including humans (year 1)</p> <p><b>Scientist:</b> Rachel Carson (marine biologist)</p> <p><b>Investigation:</b> Investigating how important all our senses are to how much we enjoy our food.</p>
Bramley	<p><b>Topic:</b> Rocks (Year 3)</p> <p><b>Scientist:</b> Mary Anning (Fossils)</p> <p><b>Investigation:</b> How does the size of sediment change down a model drainpipe river? (Deposition)</p>	<p><b>Topic:</b> Animals Including Humans (year 3)</p> <p><b>Scientist:</b> Alexander Fleming</p> <p><b>Investigation:</b> Do people who do an extra-curricular sport club have better balance?</p>	<p><b>Topic:</b> Light (year 3)</p> <p><b>Scientist:</b> David Misell</p> <p><b>Investigation:</b> What impacts a shadow? Material, distance etc. Open ended question for children to choose their investigation focus.</p>	<p><b>Topic:</b> Forces and Magnets (year 3)</p> <p><b>Scientist:</b> William Gilbert</p> <p><b>Investigation:</b> Does the size of the magnet determine how many paperclips it can attract?</p>	<p><b>Topic:</b> Plants (year 3)</p> <p><b>Scientist:</b> George Washington Carver</p> <p><b>Investigation:</b> Do plants need soil to grow?</p>	<p><b>Topic:</b> Plants (year 3)</p> <p><b>Scientist:</b> Carl Linnaeus</p> <p><b>Investigation:</b> What else impacts the growth of cress?</p>
Discovery	<p><b>Topic:</b> Evolution and Inheritance (Year6)</p> <p><b>Scientist:</b> Charles Darwin (Evolution)</p> <p><b>Investigation:</b> Caterpillar Camouflage</p>	<p><b>Topic:</b> Living Things and their Habitats</p> <p><b>Scientist:</b> Maria Sibylla Merian</p> <p><b>Investigation:</b> RESEARCH HEAVY TOPIC and OBSERVATION OF PLANT REPRODUCTION</p>	<p><b>Topic:</b> Electricity (year 6)</p> <p><b>Scientist:</b> Nikola Tesla</p> <p><b>Investigation:</b> How do I make the bulb brighter?</p>	<p><b>Topic:</b> Living Things and their Habitats (year 6)</p> <p><b>Scientist:</b> Louis Pasteur</p> <p><b>Investigation:</b> Yeast investigation (Respiring measured by balloon)</p>	<p><b>Topic:</b> Forces (year 5)</p> <p><b>Scientist:</b> Isaac Newton</p> <p><b>Investigation:</b> Toy car on ramp investigation</p>	<p><b>Topic:</b> Forces (year 5)</p> <p><b>Scientist:</b> Orville and Wilbur Wright</p> <p><b>Investigation:</b> Egg parachutes</p>

	<b>KS1 (Hamilton Scheme of Work)</b>	<b>LKS2</b>	<b>UKS2</b>
<b><u>Working Scientifically – To be embedded throughout the two year cycle.</u></b>	<ul style="list-style-type: none"> <li>-asking simple questions and recognising that they can be answered in different ways</li> <li>-observing closely, using simple equipment</li> <li>-performing simple tests</li> <li>-identifying and classifying</li> <li>-using their observations and ideas to suggest answers to questions</li> <li>-gathering and recording data to help in answering questions.</li> </ul>	<ul style="list-style-type: none"> <li>-asking relevant questions and using different types of scientific enquiries to answer them</li> <li>-setting up simple practical enquiries, comparative and fair tests</li> <li>-making systematic and careful observations and, where appropriate, taking accurate measurements using standard units, using a range of equipment, including thermometers and data loggers</li> <li>-gathering, recording, classifying and presenting data in a variety of ways to help in answering questions</li> <li>-recording findings using simple scientific language, drawings, labelled diagrams, keys, bar charts, and tables</li> <li>-reporting on findings from enquiries, including oral and written explanations, displays or presentations of results and conclusions</li> <li>-using results to draw simple conclusions, make predictions for new values, suggest improvements and raise further questions</li> <li>-identifying differences, similarities or changes related to simple scientific ideas and processes</li> <li>-sing straightforward scientific evidence to answer questions or to support their findings.</li> </ul>	<ul style="list-style-type: none"> <li>-planning different types of scientific enquiries to answer questions, including recognising and controlling variables where necessary</li> <li>-taking measurements, using a range of scientific equipment, with increasing accuracy and precision, taking repeat readings when appropriate</li> <li>-recording data and results of increasing complexity using scientific diagrams and labels, classification keys, tables, scatter graphs, bar and line graphs</li> <li>-using test results to make predictions to set up further comparative and fair tests</li> <li>-reporting and presenting findings from enquiries, including conclusions, causal relationships and explanations of and degree of trust in results, in oral and written forms such as displays and other presentations</li> <li>-identifying scientific evidence that has been used to support or refute ideas or arguments.</li> </ul>
<b>Term 1 2022-23</b>	<p><b><u>Everyday Materials (year 1)</u></b></p> <ul style="list-style-type: none"> <li>-distinguish between an object and the material from which it is made</li> <li>-identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock</li> <li>-describe the simple physical properties of a variety of everyday materials</li> <li>-compare and group together a variety of everyday materials on the basis of their simple physical properties.</li> </ul>	<p><b><u>Electricity (year 4)</u></b></p> <ul style="list-style-type: none"> <li>-identify common appliances that run on electricity</li> <li>-construct a simple series electrical circuit, identifying and naming its basic parts, including cells, wires, bulbs, switches and buzzers</li> <li>-identify whether or not a lamp will light in a simple series circuit, based on whether or not the lamp is part of a complete loop with a battery</li> <li>-recognise that a switch opens and closes a circuit and associate this with whether or not a lamp lights in a simple series circuit</li> <li>-recognise some common conductors and insulators, and associate metals with being good conductors.</li> </ul>	<p><b><u>Properties and Changes of Materials (year 5)</u></b></p> <ul style="list-style-type: none"> <li>-compare and group together everyday materials on the basis of their properties, including their hardness, solubility, transparency, conductivity (electrical and thermal), and response to magnets</li> <li>-know that some materials will dissolve in liquid to form a solution, and describe how to recover a substance from a solution</li> <li>-use knowledge of solids, liquids and gases to decide how mixtures might be separated, including through filtering, sieving and evaporating</li> <li>-give reasons, based on evidence from comparative and fair tests, for the particular uses of everyday materials, including metals, wood and plastic</li> </ul>

			<ul style="list-style-type: none"> <li>-demonstrate that dissolving, mixing and changes of state are reversible changes</li> <li>-explain that some changes result in the formation of new materials, and that this kind of change is not usually reversible, including</li> </ul>
<b>Term 2 2022-23</b>	<b><u>Animals Including Humans (year 2)</u></b> <ul style="list-style-type: none"> <li>-notice that animals, including humans, have offspring which grow into adults</li> <li>-find out about and describe the basic needs of animals, including humans, for survival (water, food and air)</li> <li>-describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</li> </ul>	<b><u>States of Matter (year 4)</u></b> <ul style="list-style-type: none"> <li>-compare and group materials together, according to whether they are solids, liquids or gases</li> <li>-observe that some materials change state when they are heated or cooled, and measure or research the temperature at which this happens in degrees Celsius (°C)</li> <li>-identify the part played by evaporation and condensation in the water cycle and associate the rate of evaporation with temperature.</li> </ul>	<b><u>Light (year 6)</u></b> <ul style="list-style-type: none"> <li>-recognise that light appears to travel in straight lines</li> <li>-use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye</li> <li>-explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes</li> <li>-use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.</li> </ul>
<b>Term 3 2022-23</b>	<b><u>Uses of Everyday Materials (year 2)</u></b> <ul style="list-style-type: none"> <li>-identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses</li> <li>-find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.</li> </ul>	<b><u>Sound (year 4)</u></b> <ul style="list-style-type: none"> <li>-identify how sounds are made, associating some of them with something vibrating</li> <li>-recognise that vibrations from sounds travel through a medium to the ear</li> <li>-find patterns between the pitch of a sound and features of the object that produced it</li> <li>-find patterns between the volume of a sound and the strength of the vibrations that produced it</li> <li>-recognise that sounds get fainter as the distance from the sound source increases.</li> </ul>	<b><u>Earth and Space (year 5)</u></b> <ul style="list-style-type: none"> <li>-describe the movement of the Earth, and other planets, relative to the Sun in the solar system</li> <li>-describe the movement of the Moon relative to the Earth</li> <li>-describe the Sun, Earth and Moon as approximately spherical bodies</li> <li>-use the idea of the Earth's rotation to explain day and night and the apparent movement of the sun across the sky.</li> </ul>
<b>Term 4 2022-23</b>	<b><u>Plants (year 1)</u></b> <ul style="list-style-type: none"> <li>-identify and name a variety of common wild and garden plants, including deciduous and evergreen trees</li> <li>-identify and describe the basic structure of a variety of common flowering plants, including trees.</li> </ul>	<b><u>Living Things and Their Habitats (year 4)</u></b> <ul style="list-style-type: none"> <li>-recognise that living things can be grouped in a variety of ways</li> <li>-explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment</li> <li>-recognise that environments can change and that this can sometimes pose dangers to living things.</li> </ul>	

<p><b>Term 5 2022-23</b></p>	<p><b><u>Seasonal Changes (year 1)</u></b>          -observe changes across the four seasons          -observe and describe weather associated with the seasons and how day length varies.</p>	<p><b><u>Animals Including Humans (year 4)</u></b>          -describe the simple functions of the basic parts of the digestive system in humans          -identify the different types of teeth in humans and their simple functions          -construct and interpret a variety of food chains, identifying producers, predators and prey</p>	<p><b><u>Animals Including Humans (year 5)</u></b>          -describe the changes as humans develop to old age.</p>
<p><b>Term 6 2022-23</b></p>	<p><b><u>Animals Including Humans (year 1)</u></b>          -identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals          -identify and name a variety of common animals that are carnivores, herbivores and omnivores          -describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)          -identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</p>		<p><b><u>Animals Including Humans (year 6)</u></b>          -identify and name the main parts of the human circulatory system, and describe the functions of the heart, blood vessels and blood          -recognise the impact of diet, exercise, drugs and lifestyle on the way their bodies function          -describe the ways in which nutrients and water are transported within animals, including humans.</p>
<p><b>Term 1 2021-22</b></p>	<p><b><u>Animals Including Humans (year 2)</u></b>          -notice that animals, including humans, have offspring which grow into adults          -find out about and describe the basic needs of animals, including humans, for survival (water, food and air)          -describe the importance for humans of exercise, eating the right amounts of different types of food, and hygiene.</p>	<p><b><u>Rocks (year 3)</u></b>          -compare and group together different kinds of rocks on the basis of their appearance and simple physical properties          -describe in simple terms how fossils are formed when things that have lived are trapped within rock          -recognise that soils are made from rocks and organic matter.</p>	<p><b><u>Evolution and Inheritance (year 6)</u></b>          -recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago          -recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents          -identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</p>
<p><b>Term 2 2021-22</b></p>	<p><b><u>Seasonal Changes (year 1)</u></b>          -observe changes across the four seasons</p>	<p><b><u>Animals Including Humans (year 3)</u></b></p>	<p><b><u>Living Things and Their Habitats (year 5)</u></b>          -describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird</p>

	-observe and describe weather associated with the seasons and how day length varies.	-identify that animals, including humans, need the right types and amount of nutrition, and that they cannot make their own food; they get nutrition from what they eat -identify that humans and some other animals have skeletons and muscles for support, protection and movement.	-describe the life process of reproduction in some plants and animals.
<b>Term 3 2021-22</b>	<b><u>Uses of Everyday Materials (year 2)</u></b> -identify and compare the suitability of a variety of everyday materials, including wood, metal, plastic, glass, brick, rock, paper and cardboard for particular uses -find out how the shapes of solid objects made from some materials can be changed by squashing, bending, twisting and stretching.	<b><u>Light (year 3)</u></b> -recognise that they need light in order to see things and that dark is the absence of light -notice that light is reflected from surfaces -recognise that light from the sun can be dangerous and that there are ways to protect their eyes -recognise that shadows are formed when the light from a light source is blocked by an opaque object -find patterns in the way that the size of shadows change.	<b><u>Electricity (year 6)</u></b> -associate the brightness of a lamp or the volume of a buzzer with the number and voltage of cells used in the circuit -compare and give reasons for variations in how components function, including the brightness of bulbs, the loudness of buzzers and the on/off position of switches -use recognised symbols when representing a simple circuit in a diagram.
<b>Term 4 2021-22</b>	<b><u>Plants (year 2)</u></b> -observe and describe how seeds and bulbs grow into mature plants -find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.	<b><u>Forces and Magnets (year 3)</u></b> -compare how things move on different surfaces -notice that some forces need contact between two objects, but magnetic forces can act at a distance -observe how magnets attract or repel each other and attract some materials and not others -compare and group together a variety of everyday materials on the basis of whether they are attracted to a magnet, and identify some magnetic materials -describe magnets as having two poles -predict whether two magnets will attract or repel each other, depending on which poles are facing.	<b><u>Living Things and Their Habitats (year 6)</u></b> -describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals -give reasons for classifying plants and animals based on specific characteristics.
<b>Term 5 2021-22</b>	<b><u>Living Things and Their Habitats (Year 2)</u></b> -explore and compare the differences between things that are living, dead, and things that have never been alive -identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of	<b><u>Plants (year 3)</u></b> -identify and describe the functions of different parts of flowering plants: roots, stem/trunk, leaves and flowers -explore the requirements of plants for life and growth (air, light, water, nutrients from soil, and room to grow) and how they vary from plant to plant -investigate the way in which water is transported within plants	<b><u>Forces (year 5)</u></b> -explain that unsupported objects fall towards the Earth because of the force of gravity acting between the Earth and the falling object -identify the effects of air resistance, water resistance and friction, that act between moving surfaces

	<p>different kinds of animals and plants, and how they depend on each other</p> <ul style="list-style-type: none"> <li>-identify and name a variety of plants and animals in their habitats, including microhabitats</li> <li>-describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</li> </ul>	<ul style="list-style-type: none"> <li>-explore the part that flowers play in the life cycle of flowering plants, including pollination, seed formation and seed dispersal.</li> </ul>	<ul style="list-style-type: none"> <li>-recognise that some mechanisms, including levers, pulleys and gears, allow a smaller force to have a greater effect.</li> </ul>
<p><b>Term 6 2021-22</b></p>	<p><b><u>Animals Including Humans (year 1)</u></b></p> <ul style="list-style-type: none"> <li>-identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals</li> <li>-identify and name a variety of common animals that are carnivores, herbivores and omnivores</li> <li>-describe and compare the structure of a variety of common animals (fish, amphibians, reptiles, birds and mammals, including pets)</li> <li>-identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense.</li> </ul>
