

# Kinetic Letters®

[To be typed on School headed paper]

Date:

Dear Parent / Carer / Guardian

**Writing a first name**

We are delighted that your child is going to join our school next term.

We are aware that many people want their child to be able to write their first name before they arrive at their new school.

We use the Kinetic Letters® handwriting programme which is very successful in enabling both boys and girls to write quickly and accurately so that handwriting becomes a skill they can perform automatically.

This means that when they write, they can focus all their thinking on what they want to write and not get distracted by worrying about how individual letters are formed.

We will teach your child how to write but if they are having a try at writing their names before they start school, please use the poster on the back of this letter as a guide for the shape of the letters, as these are the letter shapes your child will learn at our school.

With all good wishes

Yours sincerely

Reception Teacher
